SOUTH JERSEY GAS

Pipeline Replacement Project

CLEMENTS BRIDGE ROAD PROJECT

South Jersey Gas is improving our natural gas infrastructure that provides safe, reliable, affordable natural gas to 400,000 customers across southern New Jersey.

The upcoming work in your neighborhood is part of our company's ongoing pipeline replacement program, which upgrades aging natural gas mains and services with new, durable plastic.

We may dig on your property as part of this work. A temporary repair will be made until final restoration occurs, typically within 60 to 90 days. Openings in concrete will be temporarily patched with asphalt until final restoration occurs. Openings made in grass areas during the winter may not be restored until warmer weather to facilitate growth.

Residents along this project route will have access to and from their properties at all times. Appropriate traffic control personnel will direct motorists and pedestrians around all work.

We take great care in implementing construction practices that limit disturbances to residents and we understand that your time is valuable. We appreciate your patience and thank you in advance for your cooperation.

Municipality	County
Runnemede	Camden

Project Timeframe
February 2022 - March 2022

Streets Directly Affected
E. Clements Bridge Road
(Presidential Apartment Road)

Project Scope

- Work will take place Monday through Friday, from 7:00 a.m. to 5:00 p.m. Some Saturday work during the same time frame may occur.

- Our certified contractor will replace aging gas mains with new, durable plastic pipe.

- Service lines from the gas main in the street up to the gas meter will also be replaced.

- If your gas meter is located inside of your home or business, it will be relocated outside.

- Your gas service will be temporarily turned off but will be restored as quickly as possible, in most cases within 8 hours.
